

# ROBBERY

## **DEFINITION**

Robbery, for UCR purposes, is defined as the unlawful taking of the property of another through the use or threat of force. Robbery is a violent crime in which the element of personal confrontation between the victim and offender is present. Attempts to rob are included in the robbery count. Armed robberies, those involving weapons, and strong-arm robberies, those not involving weapons, make up the two major categories. One robbery is counted for each distinct operation, regardless of the number of victims present at the time.
